PROFESSIONAL EXPERIENCE

Business Applications Developer Intern **Oct 2026 - Present**

ITHENA, Remote | Portfolio: github.com/sayyamdoshii/portfolio

- Built iThena Expense, a company-wide expense tracking app, with Claude Code and GitHub; designed receipt-level duplicate detection to stop repeat claims and filtered views to speed approvals.
- Co-developed iThena People, an onboarding portal built from BRD/PRD requirements, owning the UI, automated email templates, and a multi-level employee-to-HR sign-off workflow.
- Architecting Press Scout, an AI media discovery platform on Tavily and LLMs with a weighted scoring model to rank publications, targeting an 85% cut in manual research time.
- Conduct UAT for the company CRM, co-authoring the test plan and bug prioritization approach, and authored a recommended-changes review of the Billing app.

FP&A Analyst **Jan 2025 - Present**

Candlewood Suites, West Springfield, MA

- Own the full planning cycle for a $1M+ hotel property, building the annual budget and monthly forecasts and running month-end close, including journal entries and balance sheet reconciliations.
- Built the financial model and budget tracking for an $800K capital program, supporting ownership decisions on project spend.
- Cut reporting close cycle time by 25% by automating recurring reporting workflows and ad hoc financial models.
- Deliver monthly variance analysis, KPI dashboards, and operating review decks that connect operational data to financial performance for leadership and ownership.

Financial Planning Analyst **Sep 2022 - Apr 2024**

Suffolk University, Boston, MA

- Built financial models and KPI frameworks that informed $400K+ in investment decisions for senior university leadership.
- Uncovered a $20K+ revenue opportunity through deep-dive variance analysis that previous reviews had missed.
- Supported close across a $5M+ portfolio with journal entries and reconciliations, and delivered SQL and Python driven insights and quarterly leadership presentations for a 10,000-student institution.

Junior Financial Analyst **Jul 2021 - Aug 2022**
Finance Intern **Aug 2020 - Jul 2021**

Wipro, Pune, India

- Reduced recurring reporting time by 40% by rebuilding financial reporting workflows in SQL and SAP FI/CO.
- Supported forecasting, OPEX and CAPEX planning, and non-labor expense tracking for teams across India, Europe, and the Americas.
- Prepared variance, trend, and KPI analysis for monthly operating reviews and partnered with FP&A and accounting teams through close; promoted from intern to full-time analyst.
